

Cool things about Tiki, its community and what they standÂ for

All-in-oneÂ solution

[+]

- all features are compatible with each other and they will be in future versions
- no need to search the web for extra features or plugins, also meaning -->
- lower risk that developers

- disappear
- go out of business
- simply stop supporting a feature

Great *lead by example* philosophy

[+]

- don't like something about Tiki? You are strongly encouraged to roll up your sleeves and help make it better
- this attitude is perfectly encapsulated by

I always wondered why somebody didn't do something about that.

Then I realized I am somebody.

Objective about its own strengths and weaknesses

[+]

- team goes to great lengths to ensure the community contributes to a fair and balanced self-assessment of Tiki's capabilities
