General Description

Hi, I'm Sikko, a Tiki user from the Netherlands, im trying to get to know Tiki and hosting it better, and to do that i have got a few websites running it, for instance mini-enterprises.com, a site to help out in starting a community or other collaboration program, and it already made a few offspring.
For instance minidvd.nl.
This is not my site, but i helped start them up.
I like Tiki CMS very much and am working on making a dutch manual for it, did this before for other projects.

Greeting all, Sikko
